EMPLOYMENT

Joint Committee on Taxation, United States Congress, Economist 2012 – Present

Responsible for modeling and analyzing the revenue effects of proposed changes in tax policy, including the effects on payroll taxes, certain individual tax credits, and certain excise taxes.

Economic Modeling: Perform statistical and data analysis on large data sets, including:

- Analyzing IRS individual income tax return data to forecast the income distribution
- Forecasting the number of individual tax filers by filing status
- Building a number of tax return and non-filer panel datasets
- Developed a new method to estimate tax offsets to changes in payroll taxes (see JCX-89-16)

Legislative Analysis: Estimate the revenue effects and provide analysis for proposals, including:

- Analyzing industry data to show impact of tax changes on employment
- Considering taxpayer compliance implications of proposed tax legislation
- Writing hundreds of letters to Members of Congress and staff analyzing proposals

EDUCATION

Ph.D., Economics, Rice University, 2012

M.A., Economics, Rice University, 2011

B.S., *summa cum laude*, Chemical Engineering, University of Oklahoma, 2003
